Phone portrait

The wireframe is enclosed in a large rectangular border. In the top-left corner, there are three horizontal lines representing a menu. In the top-right corner, there is a square icon with an 'X' inside. Below the menu lines, there are three horizontal lines for text. The main content area is divided into three horizontal sections, each enclosed in a rectangular border. Each section begins with a hatched rectangular header. The first section contains a large square icon with an 'X' and three horizontal lines to its right. The second section contains a square icon with a right-pointing triangle and three horizontal lines to its right. The third section contains a rectangular icon with a right-pointing triangle and two horizontal lines to its right.

Contact Phone Portrait

A hand-drawn wireframe for a contact phone portrait. The layout is divided into two main horizontal sections. The top section contains a hamburger menu icon (three horizontal lines) in the top left and a square icon with an 'X' in the top right. Below these is a horizontal bar with diagonal hatching. Underneath the bar are two columns of elements: the left column features a telephone handset icon above a hatched bar and three horizontal lines; the right column features an envelope icon above a hatched bar and three horizontal lines. The bottom section of the wireframe begins with a hatched bar, followed by two horizontal lines, and then a large empty rectangular box. Below this box is a label that reads "BUTTON". At the very bottom of the wireframe is a single horizontal line.
